SCID-NP SUMMARY SCORE SHEET

DSM-III-R Axis V: Global Assessment of Functioning

1. Consider psychological, social, and occupational functioning on a hypothetical continuum of mental health-illness. Do not include impairment in functioning due to physical (or environmental) limitations.

Circle appropriate code for the week of poorest functioning in past month.

**CODE**

Good functioning in all areas, interested and involved in a wide range of activities, socially effective, generally satisfied with life, no more than everyday problems or concerns, absent or minimal symptoms (e.g., mild anxiety before an exam, an occasional argument with family member)

09

No more than slight impairment in social, occupational, or school functioning (e.g., temporarily falling behind in school work); if symptoms are present, they are transient and expectable reactions to psychosocial stressors (e.g., difficulty concentrating after family argument)

08

Some difficulty in social, occupational, or school functioning, but generally functioning pretty well, has some meaningful interpersonal relationships OR some mild symptoms (e.g., depressed mood and mild insomnia, occasional truancy, or theft within the household)

07

Moderate difficulty in social, occupational, or school functioning
OR moderate symptoms (e.g., few friends and conflicts with peers, flat affect and circumstantial speech, occasional panic attacks)

06

Any serious impairment in social, occupational, or school functioning
OR serious symptoms (e.g., no friends, unable to keep a job, suicidal ideation, severe obsessional rituals, frequent shoplifting)

05

Major impairment in several areas, such as work or school, family relations, judgment, thinking, or mood (e.g., depressed man avoids friends, neglects family, and is unable to work; child frequently beats up younger children, is defiant at home, and is failing at school) OR some impairment in reality testing or communication (e.g., speech is at times illogical, obscure, or irrelevant)

04

Inability to function in almost all areas (e.g., stays in bed all day; no job, home, or friends) OR behavior is considerably influenced by delusions or hallucinations OR serious impairment in communication or judgment (e.g., sometimes incoherent, acts grossly inappropriately, suicidal preoccupation)

03

Some danger of hurting self or others (e.g., suicide attempts without clear expectation of death, frequently violent, manic excitement) OR occasionally fails to maintain minimal personal hygiene (e.g., smears feces) OR gross impairment in communication (e.g., largely incoherent or mute)

02

Persistent danger of severely hurting self or others (e.g., recurrent violence) OR persistent inability to maintain minimal personal hygiene OR serious suicide act with clear expectation of death

STRESS RESPONSE RATING SCALE

DIRECTIONS: Please judge the degree to which the following 40 signs and symptoms describe the respondent now (e.g., in the past 7 days). Do not spend too much time deciding about any one item. Base your judgments on either the history as reported or your own observations. Circle the appropriate response for each item. If you have absolutely no information for a particular item, and the not present response might inaccurately describe the subject's condition, then use the no information response, but use it sparingly.

45. HYPERVIGILANCE - Excessively alert, overly scanning the surrounding environment, overly aroused in perceptual searching, tensely expectant...................... DK 01 02 03 ( )

46. STARTLE REACTIONS - Flinching after noises, unusual orienting reactions, blanching or otherwise reacting to stimuli that usually do not warrant such responses...................... DK 01 02 03 ( )

47. ILLUSIONS OR MISPERCEPTIONS - A misappraisal of a person, object, or scene as something or someone else (e.g., a bush is seen for a moment as a person; a person is misrecognized as someone else)....................... DK 01 02 03 ( )

48. INTRUSIVE THOUGHTS OR IMAGES WHEN TRYING TO SLEEP - Unwelcome and unbidden mental contents that may be difficult to dispel; include trains of thought that begin volitionally but develop an out-of-control quality...................... DK 01 02 03 ( )

49. BAD DREAMS - Any dreams experienced as unpleasant, not just the classical nightmare with anxious awakenings.................. DK 01 02 03 ( )

50. HALLUCINATIONS, PSEUODHALLUCINATIONS - An emotional reaction to imagined stimuli, experienced as if it were real, regardless of the person's belief in its reality. "Felt presences" of others as well as sensations of smell, taste, touch, movement, sound and vision are included, along with out-of-body experiences...................... DK 01 02 03 ( )

51. INTRUSIVE IMAGES WHILE AWAKE - Unbidden sensations which occur in a nonvolitional manner either in visual or other sensory systems. Awareness of these images is unwanted and occurs suddenly.................. DK 01 02 03 ( )
<p>| STRESS RESPONSE RATING SCALE | | | | |
|---|---|---|---|
| <strong>52. INTRUSIVE THOUGHTS OR FEELING WHILE AWAKE</strong> - Unwilled entries of simple ideas or trains of thought and feeling taking unwilled directions. | DK | 01 | 02 | 03 | 04 |
| <strong>53. PENCEMENTS</strong> - Any behavior that repeats any aspects of the serious life event, from minortic-like movements and gestures to acting out in major movements and sequences, including retelling the event. Repeated enactments of personal responses to the life event, whether or not they actually occurred at the time of the event. | DK | 01 | 02 | 03 | 04 |
| <strong>54. RUMINATION OR PREOCCUPATION</strong> - Continuous conscious awareness about the event and associations to the event that go beyond ordinary thinking through. They key characteristic is a sense of uncontrolled repetition. | DK | 01 | 02 | 03 | 04 |
| <strong>55. DIFFICULTY IN DISPELLING THOUGHTS AND FEELINGS</strong> - Once a thought or feeling has come to mind, even if it was deliberate, awareness of it cannot be stopped. | DK | 01 | 02 | 03 | 04 |
| <strong>56. WANGE OF EMOTION</strong> - A wave of feeling that increases and then decreases rather than remaining constant. | DK | 01 | 02 | 03 | 04 |
| <strong>57. FEARS OR SENSATIONS OF LOSING BODILY CONTROL</strong> - Sensations of urinating, vomiting, or defecating without will, fear of suffocating, fear of being unable to control voluntary behavior as well as somatic responses such as sweating, diarrhea, tachycardia. | DK | 01 | 02 | 03 | 04 |
| <strong>58. INATTENTION, DAZE</strong> - Staring off into space, failure to determine the significance of stimuli, flatness of response to stimuli. | DK | 01 | 02 | 03 | 04 |
| <strong>59. MEMORY FAILURE</strong> - Inability to recall expectable details, sequences of event, or specific events. | DK | 01 | 02 | 03 | 04 |
| <strong>60. LOSS OF TRAIN OF THOUGHT</strong> - Temporary or micro-momentary lapses in continuation of a communication, or report of inability to concentrate on a train of thought. | DK | 01 | 02 | 03 | 04 |
| <strong>61. NUMBNESS</strong> - Sense of not having feelings, or being &quot;l-enumbed.&quot; (Note: Either patient report or your inference is acceptable here.) | DK | 01 | 02 | 03 | 04 |</p>

INTRODUCTION

I'm going to be asking you about problems or difficulties you may have had, and I'll be making some notes as we go along. Do you have any questions before we begin?

I'd like to start with some basic information about you.

1. DEMOGRAPHIC DATA
   a. Sex (BY OBSERVATION)
      SEX: 01 male
            02 female
   b. How old are you?
      AGE:
   c. Are you married?
      IF NO: Were you ever?
      (Any children?)
      IF YES: How many?
      MARITAL STATUS (most recent):
      01 married (or living together 1+ years)
      02 separated
      03 divorced/annulled
      04 widowed
      05 never married
   d. Where do you live?
   e. Who do you live with?
   f. What kind of work do you do?
      (Do you work outside of your home?)
g. Are you working now?

- IF YES: How long have you worked there?
  - IF LESS THAN 6 MONTHS: Why did you leave your last job?
  - Have you always done that kind of work?

- IF NO: Why is that? What kind of work have you done?

h. Has there ever been a period of time when you were unable to work or go to school?

  - IF YES: When? Why was that?
  - IF NOT OBVIOUS FROM WORK HISTORY: How far did you get in school?

i. IF FAILED TO COMPLETE A PROGRAM IN WHICH THEY WERE ENROLLED: Why didn't you finish?

2. BRIEF OVERVIEW OF LIFETIME ADJUSTMENT.

a. Have you ever seen anybody for emotional or psychiatric problems?

  - IF YES: What was that for?
    (What treatment did you get? Any medication?)

  - IF NO: Was there ever a time when you, or someone else, thought you should see someone because of the way you were feeling or acting?
b. Have you ever been a patient in a psychiatric hospital?

IF YES: What was that for?

IF GIVES AN INADEQUATE ANSWER, CHALLENGE GENTLY: e.g., "Wasn't there something else? People usually don't go to psychiatric hospitals just because they are tired or nervous."

c. IF NO EVIDENCE OF PAST PSYCHOPATHOLOGY: Thinking back over your whole life, when were you the most upset?

(Why? What was that like? How were you feeling?)

d. When were you feeling the best you have ever felt?

(Were you feeling so good that other people were worried about you?)

3. BRIEF OVERVIEW OF CURRENT ADJUSTMENT (PAST YEAR)

a. Now I would like to ask you about the past year. How have things been going for you?

b. Has anything happened that has been especially hard for you?

c. What about difficulties at work or with your family?

d. How has your mood been?

e. What about your physical health? (Do you take any medications now?) USE INFORMATION TO CODE AXIS III.

PSYCHOACTIVE SUBSTANCE DEPENDENCE AND ABUSE

ALCOHOL DEPENDENCE OR ABUSE CRITERIA (LIFETIME)

• What are your drinking habits like? (How much do you drink?)

• Was there ever a period in your life when you drank too much? (Has alcohol ever caused problems for you?)
  IF YES: What problems did it cause?

• Has anyone ever objected to your drinking?
  IF YES: Why?

IF NO SUGGESTION THAT EVER DRANK ALCOHOL EXCESSIVELY OR HAD ALCOHOL-RELATED PROBLEMS, CHECK HERE AND SKIP TO E.6 (NON-ALCOHOL PSDA)

• When in your life were you drinking the most?
  (How long did it last?)

• Now I am going to ask you several questions about that time.
  IF CAN'T IDENTIFY A PARTICULAR PERIOD, REPHRASE EACH QUESTION TO BEGIN WITH "Have you ever..."

A. At least three of the following:

1. Did you often spend a lot of time making sure that you had alcohol available or thinking about drinking?
   (1) When not actually using alcohol, a lot of time spent looking forward to use of or arranging to get alcohol

2. Did you often find that when you started drinking you ended up drinking much more than you thought you would?
   (2) Alcohol often taken in larger amounts or over a longer period than the individual intended

IF NO: What about drinking for a much longer period of time than you thought you would?

DK = inadequate information  01 = absent or false  02 = subthreshold  03 = threshold or true
3. Did you find that you needed to drink a lot more in order to get high than you did when you first started drinking?

   IF NO: What about finding that when you drank the same amount, it had much less effect than before?

4. Did you ever have the shakes when you cut down or stopped drinking (that is, your hands shook so much that other people would have been able to notice it)?

   IF HAD WITHDRAWAL SXS: After not drinking for a few hours or more, did you often drink to keep yourself from getting the shakes or becoming sick?

   IF NO: What about drinking when you were having the shakes or feeling sick so that you would feel better?

5. Did you try to cut down or stop drinking alcohol?

   IF YES: Did you ever actually stop drinking altogether?

   (How many times did you try to cut down or stop altogether?)

   IF NO: Did you want to stop or cut down?

   IF YES: Is this something you kept worrying about or was it just a passing concern?

   (3) Tolerance: need for increased amounts of alcohol in order to achieve intoxication or desired effect, or diminished effect with continued use of the same amount

   (4) Characteristic withdrawal symptoms, such as coarse tremor ("shakes"), seizures, DTs. (Do not include simple "hangover.")

   (5) Alcohol often taken to relieve or avoid withdrawal symptoms

   (6) Persistent desire or repeated efforts to cut down or control alcohol use

   DK = inadequate information  01 = absent or false  02 = subthreshold  03 = threshold or true
7. Did you have a time when you were often intoxicated or high or very hungover, when you were doing something important, like being at school or work, or taking care of children?
   
   IF NO: What about missing something important, like staying away from school or work or missing an appointment because you were intoxicated, high or very hungover?
   
   (Did you ever drink while doing something where it was dangerous to drink at all?)

8. Did you drink so often that you started to drink instead of working or spending time at hobbies or with your family or friends?

9. IF NOT ALREADY KNOWN: Did your drinking cause problems with other people, such as with family members or people at work?

   IF NOT ALREADY KNOWN: Did your drinking cause psychological problems, like making you depressed?

   IF NOT ALREADY KNOWN: Did your drinking ever cause physical problems or make a physical problem worse?

   IF YES TO ANY OF ABOVE: Did you keep on drinking anyway?

   INTERVIEWER CHECKPOINT: IF NO "A" ITEMS ARE CODED "03," CHECK HERE AND GO TO NON-ALCOHOL PSDA, E. 6 ____.
10. IF UNCLEAR: For how long a
time were you having (SXS
OF ALCOHOL DEPENDENCE OR
ABUSE)?

B. Some symptoms of the dis-
turbance have per-
sisted for at least one
month, or have occurred
repeatedly over a longer
period of time.

11. Alcohol Dependence: At least 3 "A" items are coded "03"
Alcohol Abuse: Does not meet criteria for
Dependence but does meet either
(1) or (2) below:

(1) continued use despite a
persistent social, occupational,
psychological, or physical problem
that is caused or exacerbated by
use of alcohol

(2) recurrent use in situations
when use is hazardous (e.g.,
driving while intoxicated)

Neither Dependence nor Abuse (unlikely if you got
this far!)

12. IF UNCLEAR: During the past month, have you had (LIST OF ALCOHOL DEPENDENCE SXS CODED "3")? Has met criteria for Alcohol Dependence or Abuse during past month

13. When did you last have problems with alcohol? Number of months prior to interview when last met criteria for Alcohol Dependence or Abuse

14. (Additional questions regarding alcohol use during the worst week of the past month and effect on social and occupational functioning may be necessary.)

Mild: Few, if any, symptoms in excess of those required to make the diagnosis AND symptoms result in only mild impairment in occupational functioning or in usual social activities or relationships with others

Moderate: Symptoms or functional impairment intermediate between "mild" and "severe"

Severe: Many symptoms in excess of those required to make the diagnosis AND symptoms markedly interfere with occupational functioning or with usual social activities or relationships with others

15. During the past five years, how much of the time have you had problems with alcohol? Duration in months during past five years that any symptoms of Alcohol Dependence or Abuse were present

16. How old were you when you first had (LIST OF ALCOHOL DEPENDENCE SXS CODED "3")? Age at onset of Alcohol Dependence or Abuse

17. Have you ever taken any of these to get high, to sleep better or to change your mood?

   IF A DRUG THAT IS SOMETIMES PRESCRIBED: Was that prescribed or did you take it on your own?

   IF PRESCRIBED: Did you take more than was prescribed? Did you ever get hooked (become dependent) on a drug that was prescribed for you?

   IF EVER HAS TAKEN ANY OF THESE DRUGS ON YOUR OWN OR MORE THAN WAS PRESCRIBED OR BECAME DEPENDENT: Have you taken these more than five times (on your own)? Have you used marijuana more than twenty times? (Have you ever used any of these drugs nearly every day for more than a week?)

CHECK DRUG CLASS AT OR ABOVE SCREENING THRESHOLD AND NOTE SPECIFIC DRUG USED

18. Sedatives-hypnotics-anxiolytics (e.g., quaalude, seconal, valium, librium, "downers")

19. Cannabis (e.g., marijuana, THC, "grass," "weed," "reefer," "pot," hashish)

20. Stimulants (e.g., amphetamine, "speed," "uppers")

SCREENING FOR DRUG USE:

Either (1), (2), or (3):

(1) has used cannabis more than twenty times, or nearly every day for more than a week

(2) has taken other non-alcoholic drug(s) on his or her own (or more than was prescribed), to sleep or to alter mood or thinking, more than five times or nearly every day for more than a week

(3) reports becoming dependent on a prescribed drug

CURRENT MAJOR DEPRESSIVE SYNDROME

MDS CRITERIA

A. At least 5 of the following symptoms have each been present during the same two-week period; at least one of the symptoms was either (1) depressed mood, or (2) loss of interest or pleasure.

NOTE: DO NOT INCLUDE SXS THAT ARE CLEARLY DUE TO A PHYSICAL CONDITION, MOOD-INCONGRUENT DELUSIONS OR HALLUCINATIONS, INCOHERENCE OR MARKED LOOSENING OF ASSOCIATIONS.

1. In the last month...

...has there been a period of time when you were feeling depressed or down most of the day nearly every day? (What was that like?)

IF YES: How long did it last? (As long as two weeks?)

2. ...what about not being interested in most things or unable to enjoy the things you used to enjoy? (What was that like?)

   Drinking a lot? (Any change?)
   IF YES TO ANY OF THESE QUESTIONS, DETERMINE IF THE DEPRESSIVE EPISODE WAS PRECIPITATED AND SUSTAINED BY AN ORGANIC FACTOR.

B.(1) An organic etiology has been ruled out, i.e., either there was no new organic factor (or change in a pre-existing organic factor) that precipitated the disturbance, or the disturbance has persisted for at least one month beyond the cessation of the precipitating organic factor.

IF ORGANIC FACTOR, DESCRIBE:

DK = inadequate information  01 = absent or false  02 = subthreshold  03 = threshold or true
2. IF DURATION OF DEPRESSION HAS BEEN RELATIVELY BRIEF: Did this begin soon after someone close to you died? IF YES, DETERMINE IF ANY DEPRESSIVE EPISODE WAS NOT DUE TO UNCOMPPLICATED BEREAVEMENT. IF SO, CODE "03."

B. (2) Not a normal reaction to the loss of a loved one (Uncomplicated Bereavement). (NOTE: Morbid preoccupation with worthlessness, suicidal ideation, marked functional impairment or psychomotor retardation, or prolonged duration, suggest bereavement complicated by Major Depression.)

3. MAJOR DEPRESSIVE SYNDROME CRITERIA A AND B ARE CODED "03"

10. When did [SX OF DYSTHYMIA] begin? (COMPARE WITH DATE OF ONSET OF FIRST MAJOR DEPRESSIVE SYNDROME, A. 8)

C. During the first two years of the disturbance, no clear evidence of a major depressive episode. NOTE: There may have been a prior major depressive episode provided that there was a full remission (no significant signs or symptoms for six months) prior to the development of the Dysthymia. In addition, after two years of Dysthymia, major depressive episodes may be superimposed, in which case both diagnoses are given.

PSYCHOTIC SCREENING

THIS MODULE IS FOR DETERMINING WHETHER NON-ORGANIC PSYCHOTIC SYMPTOMS HAVE BEEN PRESENT AT ANY TIME DURING THE SUBJECT'S LIFE. (IN SOME CLINICAL AND RESEARCH SETTINGS SUBJECTS WITH A HISTORY OF NON-ORGANIC PSYCHOTIC SYMPTOMS WILL BE EXCLUDED.)

FOR ANY PSYCHOTIC SYMPTOMS CODED "03" DETERMINE WHETHER THE SYMPTOM IS "NOT ORGANIC" OR WHETHER THERE IS A POSSIBLE OR DEFINITE ORGANIC CAUSE. THE FOLLOWING QUESTIONS MAY BE USEFUL IF THE OVERVIEW HAS NOT ALREADY PROVIDED THE INFORMATION:

When you were (PSYCHOTIC SXS), were you taking any drugs or medicines? Drinking a lot? Physically ill?

• IF HAS NOT ACKNOWLEDGED PSYCHOTIC SXS: Now I am going to ask you about unusual experiences that people sometimes have.

• IF HAS ACKNOWLEDGED PSYCHOTIC SXS: You have told me about (PSYCHOTIC EXPERIENCES). Now I am going to ask you more about those kinds of things.

DELIUSIONS

A false personal belief based on incorrect inference about external reality and firmly sustained in spite of what almost everyone else believes and in spite of what constitutes incontrovertible and obvious proof or evidence to the contrary. Code overvalued ideas (an unreasonable and sustained belief that is maintained with less than delusional intensity) as 02.

Has met symptomatic criteria for manic syndrome (criteria A and B) or depressive syndrome (criterion A) in past month.

When did you last have (EITHER DEPRESSED MOOD, OR EUPHORIC OR IRRITABLE MOOD)? (i.e., most recent episode)

Number of months prior to interview when last had either depressed, or euphoric or irritable mood.

*PAST FIVE YEARS*

NOTE SUBCLASSIFICATION OF CURRENT EPISODE (FOR WORST WEEK IN PAST MONTH) AS FOLLOWS:
(Additional questions regarding social and occupational impairment may be necessary.)

IF CURRENT EPISODE IS MANIC OR MIXED (IF DEPRESSED, D. 4)

Mild: Meets minimum symptom criteria for a manic episode.

Moderate: Extreme increase in activity or impairment in judgment.

Severe, without Psychotic Features: Almost continual supervision is required in order to prevent physical harm to self or others.

With Psychotic Features: Delusions, or hallucinations (with delusional interpretation). Specify whether the psychotic features are mood-congruent or mood incongruent.

Mood-congruent psychotic features: Delusions or hallucinations whose content is entirely consistent with the typical manic themes of inflated worth, power, knowledge, identity, or special relationship to a deity or famous person.

Mood-incongruent psychotic features: Either (a) or (b):

(a) Delusions or hallucinations whose content does not involve the typical manic themes of inflated worth, power, knowledge, identity, or special relationship to a deity or famous person. Included are such symptoms as persecutory delusions, thought insertion, and delusions of being controlled.

(b) Any catatonic symptoms, e.g., stupor, mutism, negativism, or posturing.

DK= inadequate information  01= absent or false  02= subthreshold  03= threshold or true
IF CURRENT EPISODE IS DEPRESSED:

Mild: Few, if any, symptoms in excess of those required to make the diagnosis AND symptoms result in only minor impairment in occupational functioning or in usual social activities or relationships with others.

Moderate: Symptoms or functional impairment intermediate between "mild" and "severe".

Severe, without Psychotic Features: Several symptoms in excess of those required to make the diagnosis AND symptoms markedly interfere with occupational functioning or with usual social activities or relationships with others.

With Psychotic Features: Delusions, or hallucinations (with delusional interpretation). Specify whether the psychotic features are mood-congruent or mood-incongruent.

- Mood-congruent psychotic features: Delusions or hallucinations whose content is entirely consistent with the typical depressive themes of personal inadequacy, guilt, disease, death, nihilism, or deserved punishment.

- Mood-incongruent psychotic features: Delusions or hallucinations whose content does not involve typical depressive themes of personal inadequacy, guilt, disease, death, nihilism, or deserved punishment. Included here are such symptoms as persecutory delusions, thought insertion, thought broadcasting, and delusions of control.

*PAST FIVE YEARS*

During the past five years, how much of the time have you been bothered by (EUPHORIC/IRRITABLE MOOD AND/OR DEPRESSED MOOD AND/OR LOSS OF INTEREST? Would you say...[CODES]?

Approximate percentage of time during past five years that euphoric/irritable AND/OR depressed mood AND/OR loss of interest were present. (CODE 01-06 USING DEFINITIONS IN BOX BELOW)

POST-TRAUMATIC STRESS DISORDER

HISTORY OF PSYCHOSOCIAL STRESSORS

1. Sometimes things happen to people that are very stressful or disturbing --things that do not happen to most people and are so bad that they would be distressing, upsetting, or frightening to almost everyone. By that I mean things like major earthquakes or floods, very serious accidents or fires, physical assault or rape, seeing other people killed or dead, being in a war or heavy combat, or some other type of disaster. At any time during your life--that is, before, during, or after you were in the military--have any of these kinds of things happened to you? (LIST ALL TRAUMATIC EVENTS MENTIONED; RECORD DETAILS ON FACING PAGE.)

Now I'd like to ask you a few specific questions about your military experience.

2. In which branch of the service did you serve? Army 01 Navy 02 Air Force 03 Marines 04 Coast Guard 05

3. Were you drafted or did you enlist? Drafted 01 Enlisted 02

4. Were you stationed in Vietnam? No 01 Yes 03

10. Were you ever in danger of being injured or killed? No 01 Yes 03

(IF YES: How frequently?)

11. Were you wounded or injured in Vietnam? No 01 Yes 03

11a. (IF YES: Can you tell me about your injury?) (RECORD INJURY TYPE)

11b. Do you have a service connected disability? No 01 Yes 03

11c. (IF YES: What percentage?)

11d. (What is it for?)

12. Overall, what do you think has been the impact of your military experience on your life since that time? (RECORD DETAILS ON FACING PAGE. IF R DOES NOT MENTION, PROBE FOR BOTH PERCEIVED POSITIVE AND NEGATIVE EFFECTS, AND FOR VARIOUS ASPECTS OF ADJUSTMENT--FAMILY, WORK, SCHOOL, ETC.)

13. Of all the things that have happened to you or that you have done in your life, including Vietnam, what were the most upsetting? (RECORD DETAILS ON FACING PAGE)
14. I'd like you to try to recall as best you can how you felt and what you experienced at the time (most upsetting event) happened, including the few minutes just before. Now, I'm going to ask you some specific questions about how you felt at that time.

14a. (At that time) Did you have moments of losing track of what was going on--that is, did you "blank out", "space out", or in some other way not feel that you were not a part of the experience?

14b. (At that time) Did you find yourself going on "automatic pilot"--that is, doing something that you later realized you had done but hadn't actively decided to do?

14c. (At that time) Did your sense of time change during the event--that is, did things seem unusually speeded up or slowed down?

14d. (At that time) Did what was happening seem unreal to you, as though you were in a dream or watching a movie or a play?

14e. (At that time) Were there moments when you felt as though you were a spectator watching what was happening to you--for example, did you feel as if you were floating above the scene or observing it as an outsider?

14f. (At that time) Were there moments when your sense of your own body seemed distorted or changed--that is, did you feel yourself to be unusually large or small, or did you feel disconnected from your body?

14g. (At that time) Did you get the feeling that something that was happening to someone else was happening to you? For example, if you saw someone being injured, did you feel as though you were the one being injured, even though this was not the case?

14h. Were you surprised to find out after the event that a lot of things had happened at the time that you were not aware of, especially things that you felt you ordinarily would have noticed?

14j. (If R was injured during the event) If you were injured, did you find that you felt surprisingly little pain at the time of the injury?

POST-TRAUMATIC STRESS DISORDER CRITERIA

15. (CODE FROM ANSWERS TO STRESSOR QUESTIONS ABOVE)

A. The individual has experienced an event (or multiple events) that is outside the range of usual human experience and that would be markedly distressing to almost anyone.

B. During some phase of the illness, the traumatic event is persistently reexperienced in at least one of the following ways:

1. (1) recurrent and intrusive distressing recollections of the event
2. (2) recurrent distressing dreams of the event

16. ..did you think about (this event/any of these events) when you didn't want to or did (it/they) come to you suddenly and vividly when you didn't want (it/them) to, perhaps even when there was nothing there to remind you of (it/them)?

(IF YES: Can you tell me more about that? RECORD CONTENT ON FACING PAGE.)

ANXIETY DISORDERS

PANIC DISORDER

43. Have you ever had a panic attack, when you suddenly felt frightened, anxious or extremely uncomfortable?
   IF YES: Tell me about it. When does that happen? (Have you ever had one when you didn't expect to at all?)
   A. At some time during the disturbance, one or more panic attacks (discrete periods of intense discomfort or fear) that were (1) unexpected, i.e., did not occur immediately before or upon exposure to a situation that almost always caused anxiety, and (2) not triggered by situations in which the individual was the focus of others' attention.

44. Have you ever had three attacks like that in a three-week period?
   IF NO: Did you worry a lot about having another one? (How long did you worry?)
   B. Either four attacks, as defined in criterion A, occurred within a four-week period, or one or more attacks were followed by a period of at least a month of persistent fear of having another attack.

When was the last bad one (EXPECTED OR UNEXPECTED)?

Now I am going to ask you about that attack. What was the first thing you noticed? Then what?

During that attack...

45. ...were you short of breath? (Have trouble catching your breath?)

   (1) shortness of breath (dyspnea) or smothering sensations

46. ...did you feel as if you were choking?

   (2) choking

47. ...did your heart race, pound or skip?

   (3) palpitations or accelerated heart rate (tachycardia)

DK = inadequate information  01 = absent or false  02 = subthreshold  03 = threshold or true
During that attack...

48. ...did you have chest pain or pressure? (4) chest pain or discomfort

49. ...did you sweat? (5) sweating

50. ...did you feel dizzy, unsteady, or like you might faint? (6) dizziness, unsteady feelings, or faintness

51. ...did you have nausea or upset stomach or the feeling that you were going to have diarrhea? (7) nausea or abdominal distress

52. ...did things around you seem unreal or did you feel detached from things around you or detached from part of your body? (8) depersonalization or derealization

53. ...did you have tingling or numbness in parts of your body? (9) numbness or tingling sensations (paresthesias)

54. ...did you have flushes (hot flashes) or chills? (10) flushes (hot flashes) or chills

55. ...did you tremble or shake? (11) trembling or shaking

56. ...were you afraid that you might die? (12) fear of dying

57. ...were you afraid you were going crazy or might lose control? (13) fear of going crazy or of doing something uncontrolled

58. AT LEAST FOUR "C" SXS ARE CODED "03"

NOTE: ATTACKS INVOLVING FOUR OR MORE SYMPTOMS ARE GO TO F.14

PANIC ATTACKS; ATTACKS INVOLVING FEWER THAN FOUR SYMPTOMS ARE LIMITED SYMPTOM ATTACKS (SEE AGORAPHOBIA WITHOUT HISTORY OF PANIC DISORDER, F.14).

DK = inadequate information  01 = absent or false  02 = subthreshold  03 = threshold or true
59. When you have bad attacks, how long does it take from when it begins to when you have most of the symptoms? (Is it often less than ten minutes?)

D. During at least some of the attacks, at least four of the "C" symptoms developed suddenly and increased in intensity within ten minutes of the beginning of the first "C" symptom noticed in the attack.

60. Just before you began having panic attacks, were you taking any drugs, stimulants or medicines?

IF YES: Did you keep having the attacks after you stopped?

E. It cannot be established that an organic factor initiated and maintained the disturbance, e.g., amphetamine or caffeine intoxication, hyperthyroidism.

61. NOTE: Mitral valve prolapse may be an associated condition but does not rule out a diagnosis of Panic Disorder.

NOTE: CODE "03" IF SUBSTANCE USE OR PHYSICAL ILLNESS WAS NOT ETIOLOGIC TO PANIC ATTACKS.

62. NOTE CURRENT SEVERITY OF PANIC ATTACKS:

01 Mild: During the past month, either all attacks are limited symptom attacks (i.e., fewer than four sx), or no more than one panic attack.

02 Moderate: During the past month, intermediate between "Mild" and "Severe".

03 Severe: During the past month, at least one panic attack included the symptoms of fear of dying, going crazy or doing something uncontrolled.

In Partial Remission: Intermediate between "In Full Remission" and "Mild".

04 In Partial Remission: During the past six months, no panic or limited symptom attacks.

05 In Full Remission: During the past six months, no panic or limited symptom attacks.

70. NOTE CURRENT SEVERITY OF
AGORAPHOBIC AVOIDANCE

Mild: some avoidance (or endurance
with distress), but relatively
normal lifestyle, e.g., travels
unaccompanied when necessary,
such as to work or to shop;
otherwise avoids traveling alone

Moderate: avoidance results in constricted
lifestyle, e.g., able to leave

more than a few miles unaccompa-
nied

Severe: avoidance results in being
nearly or completely houseboun-
d or unable to leave house un-
accompanied

In remission: during the past 6 months,
there have been no panic or
limited symptom attacks

AGORAPHOBIA WITHOUT HISTORY OF PANIC DISORDER (ANOPD) CRITERIA

SKIP IF EVER MET CRITERIA FOR PANIC DISORDER OR IF PSYCHOTIC (DELUSIONS, HALLUCINATIONS, DISORGANIZED SPEECH) DURING PAST MONTH, OR IF IN RESIDUAL PHASE OF SCHIZOPHRENIA.

75. Were you ever afraid of going out of the house alone, being in crowds or certain public places like tunnels, bridges, buses or trains? What were you afraid could happen?

A. Fear of being in places or situations from which escape might be difficult (or embarrassing), or in which help might not be available, in the event of sudden incapacitation. Common agoraphobic situations include being outside of the home alone, being in a crowd or standing in a line, being on a bridge, traveling in a bus, train, or car. IF FEAR OF INCAPACITATION IS RELATED TO A SPECIFIC SYMPTOM, CIRCLE BELOW:

B. As a result of this fear, there are either travel restrictions or need for a companion when away from home; or there is endurance of agoraphobic situations despite intense anxiety.

Tell me all the things you avoided (or could only do by forcing yourself).

87. Is there anything that you were ever afraid to do or felt uncomfortable doing in front of other people, like speaking, eating or writing?

Anything else?

What were you afraid would happen when ____________?

SOCIAL PHOBIA CRITERIA

A. A persistent fear of one or more situations (the phobic situations) in which the individual is exposed to possible scrutiny by others and fears that he or she may do something or act in a way that will be humiliating or embarrassing. Examples include: unable to continue talking while speaking in public, choking on food when eating in front of others, unable to urinate in a public lavatory, hand trembling when writing in front of others, saying foolish things or not being able to answer questions in social situations.

PHOBIC SITUATION(S) Circle:

- [ ] public speaking
- [ ] eating in front of others
- [ ] writing in front of others
- [ ] generalized (most social situations)
- [ ] other (Specify: ________)

B. If an Axis III or another Axis I disorder is present, the fear in "A" is unrelated to it, e.g., the fear is not of having a panic attack (Panic Disorder), stuttering (Stuttering), trembling (Parkinson's disease), exhibiting abnormal eating behavior (Anorexia Nervosa or Bulimia Nervosa).

DK 01 02 03

DK = Inadequate Information 01 = Absent or false 02 = Subthreshold 03 = Threshold or true
Did you always feel anxious when you (CONFRONTED PHOBIC STIMULUS)?

C. During some phase of the disturbance, exposure to the specific phobic stimulus (or stimuli) almost invariably provokes an immediate anxiety response.

IF NOT OBVIOUS: Did you go out of your way to avoid ________?

D. The phobic situation(s) is avoided, or endured with intense anxiety.

IF NO: How hard is it for you to ________?

95. IF NOT OBVIOUS: How important was it to you to be able to ________?

E. The fear or the avoidant behavior interferes with occupational functioning or with usual social activities or relationships with others, or there is marked distress about having the fear.

(How bothered were you that you were afraid of ________?)

96. Did you think that you were more afraid of (PHOBIC ACTIVITY) than you should have been (or than made sense)?

F. The individual recognizes that his or her fear is excessive or unreasonable.

### Obsessive Compulsive Disorder

**Criteria**

A. Either obsessions or compulsions:

#### Obsessions:

1. Recurrent and persistent ideas, thoughts, impulses, or images that are experienced as intrusive, unwanted, and senseless or repugnant (at least initially).

2. The individual attempts to ignore or suppress them or to neutralize them with some other thought or action.

3. The individual recognizes that the obsessions are the product of his or her own mind and not imposed from without (as in thought insertion).

4. If another Axis I disorder is present, the content of the obsession is unrelated to it, i.e., do not include thoughts about food in the presence of an Eating Disorder, thoughts about drugs in the presence of a Psychoactive Substance Use Disorder, or guilty thoughts in the presence of a Major Depression.

IF UNCLEAR: Do you think that you (DO COMPELLSIVE BEHAVIOR) more than you should? (Do you think [COMPELSION] makes sense?)

Compulsions: (1), (2) and (3):

(1) Repetitive, purposeful, and intentional behavior that is performed according to certain rules or in a stereotyped fashion.
(2) The behavior is not an end in itself, but is designed to neutralize or prevent discomfort or some dreaded event or situation. However, either the activity is not connected in a realistic way with what it is designed to neutralize or prevent, or it is clearly excessive.
(3) The individual recognizes that the behavior is excessive or unreasonable.

GENERALIZED ANXIETY DISORDER (CURRENT ONLY)

SKIP IF A CURRENT MOOD DISORDER IS PRESENT, OR IF PSYCHOTIC (DELUSIONS, HALLUCINATIONS, DISORGANIZED SPEECH) DURING PAST MONTH, OR IF IN RESIDUAL PHASE OF SCHIZOPHRENIA.

132. Do you worry a lot about bad things that might happen?

IF YES: What do you worry about? (How realistic is that?)

During the last six months, would you say that you have been worrying most of the time (more days than not)?

A. During the last six months, the individual has been bothered more days than not by unrealistic or excessive worry (apprehensive expectation) about two or more life circumstances, e.g., worry about possible misfortune to child (who is in no danger) and worry about finances (for no good reason). In children and adolescents, this may take the form of worrying about academic, athletic, and social performance.

B. If another Axis I disorder is present, the focus of the worry in "A" above is unrelated to it, e.g., the worry is not about having a panic attack (as in Panic Disorder), being contaminated (as in Obsessive-Compulsive Disorder), or gaining weight (as in Anorexia Nervosa).

C. At least six of the following eighteen symptoms have often been present when anxious during the past six months (DO NOT INCLUDE SXS PRESENT ONLY DURING PANIC ATTACKS):

Motor tension

(1) trembling, twitching, or feeling shaky

(2) muscle tension, aches, or soreness

Now I am going to ask you some questions about other symptoms that often go along with being nervous. Thinking about how you have felt during the last six months...

134. ...do you often tremble, twitch or feel shaky?

135. ...do your muscles often feel tense, sore or achy?

SCREENING QUESTIONS

Over the last several years, what has your physical health been like?

How often have you had to go to a doctor because you weren't feeling well? (What for?)

(Was the doctor always able to find out what was wrong, or were there times when the doctor said there was nothing wrong, but you were still convinced that something was wrong?)

(Do you worry much about your physical health? Does your doctor think you worry too much?)

SOMATIZATION DISORDER (CURRENT ONLY)

1. How old were you when you first started to have a lot of physical problems or illnesses?

FOR EACH SYMPTOM REPORTED, DETERMINE THAT THE FOUR CRITERIA FOR SIGNIFICANCE ARE MET BY SUCH QUESTIONS AS:

Did you tell a doctor about (SYMPTOM)?

What was his diagnosis? (What did he say was causing it?)

Did he find anything abnormal when he took tests or x-rays?

When you had (SYMPTOM) were you taking any medicine, drugs or alcohol?

IF HAS HAD PANIC ATTACKS: Was that only when you were having a panic attack?

Did you take any medicine for it?

Did it interfere with your life a lot?

Now I am going to ask about specific physical symptoms you may have had.

Have you ever had a lot of trouble with...

3. vomiting (when you weren't pregnant)?

4. abdominal or belly pain (not counting times when you were menstruating)?

5. nausea—feeling sick to your stomach but not actually vomiting?

6. excessive gas or bloating of your stomach or abdomen?

7. loose bowels or diarrhea

B. At least 13 symptoms from the list of symptoms below. To count a symptom as significant, the following criteria must be met:

1. no organic pathology or pathophysiologic mechanism (e.g., a physical disorder or the effects of injury, medication, drugs or alcohol) has been found to account for the symptom, or when there is related organic pathology, the complaint or resulting social or occupational impairment is grossly in excess of what would be expected from the physical findings

2. not occurring only during a panic attack

3. has caused the individual to take medicine (other than aspirin), see a doctor, or alter lifestyle

ADJUSTMENT DISORDER (CURRENT ONLY)

THIS SECTION SHOULD BE SKIPPED IF THE CURRENT DISTURBANCE MEETS THE CRITERIA FOR ANY SPECIFIC AXIS I DSM-III DIAGNOSIS

INFORMATION OBTAINED FROM OVERVIEW OF PRESENT ILLNESS WILL USUALLY BE SUFFICIENT TO RATE THE CRITERIA

ADJUSTMENT DISORDER CRITERIA

1. (Do you think that [STRESSOR] had anything to do with your getting [SYMPTOMS]?)
   A. A reaction to an identifiable psychosocial stressor, that occurs within three months of the onset of the stressor.
   DESCRIBE:

2. (What effect has [SYMPTOMS] had on you and your ability to do things?)
   B. The maladaptive nature of the reaction is indicated by either of the following:
     (1) Impairment in occupational functioning or in usual social activities or relationships with others
     (2) Symptoms that are in excess of a normal and expectable reaction to the stressor

3. (Have you had this kind of reaction many times before?)
   (Were you having these [SYMPTOMS] even before [STRESSOR] happened?)
   C. The disturbance is not merely one instance of a pattern of overreaction to stress or an exacerbation of one of the mental disorders previously described.

4. (How long has it been now since [STRESSOR AND COMPLICATIONS ARISING FROM THE STRESSOR]?)
   D. The maladaptive reaction has persisted for at least one week, but not for more than six months after the stressor (and its environmental consequences) has ceased.

DK = inadequate information  01 = absent or false  02 = subthreshold  03 = threshold or true

C. A pattern of irresponsible and antisocial behavior since the age of 15 as indicated by at least 4 of the following:

(1) inability to sustain consistent work behavior, as indicated by any of the following (Note: include similar behavior in academic settings if the individual is a student):

(a) significant unemployment for six months or more in five years when expected to work and work was available;
(b) repeated absences from work, unexplained by physical illness in self or family; or
(c) walking off several jobs without realistic plans for other jobs

17. How much of the time in the last five years were you not working?

IF MORE THAN SIX MONTHS: Why?

When you were working, were you often absent?

Have you ever been arrested?

(2) failure to conform to social norms with respect to lawful behavior, as indicated by repeatedly performing antisocial acts that are grounds for arrest (whether arrested or not) e.g., destroying property, harassing others, stealing, illegal occupation

19. (Since you were 18) have you been in any fights that came to swapping blows?

Have you ever hit or thrown things at your (spouse/partner)?

Have you ever hit a child, yours or someone else's, so hard that he or she had bruises or had to stay in bed or see a doctor?

(3) irritability and aggressiveness as indicated by repeated physical fights or assault (not required by one's job or to defend someone or oneself), including spouse or child beating

20. Have you ever owed people money and not paid them back?

What about not paying child support or not giving money to children that depended on you?

(4) repeated failure to honor financial obligations, as indicated by defaulting on debts, failure to provide child support, or failure to support other dependents on a regular basis

21. Other than being on a vacation, have you ever traveled around without knowing where you were going to stay or work?

Was there ever a time when you had no regular place to live?

(5) failure to plan ahead, or impulsivity, as indicated by one or both of the following: (a) traveling from place to place without a pre-arranged job or clear goal for the period of travel or clear idea about when the travel would terminate; or (b) lack of a fixed address for a month or more

DK=indequate information 01=absent or false 02=subthreshold 03=threshold or true

   Have you ever used an alias or pretended you were someone else?

23. Did you ever drive a car when you were drunk?
   How often have you gotten a ticket for speeding?

24. IF HAS BEEN A PARENT OR GUARDIAN:
   Has anyone ever said you weren't taking proper care of a child of yours (or a child you were responsible for)--like not giving enough food or keeping the child clean enough or getting medical care when the child was sick; leaving the child with neighbors because you weren't able to take care of the child at your home; or running out of money to take care of the child because you spent the money on yourself?
   Has any of these things ever happened?

25. What's the longest period of time you were sexually involved with one person without having sex with anyone else?

---

(6) disregard for the truth as indicated by repeated lying, use of aliases, "conning" others for personal profit or pleasure
(7) recklessness, as indicated by driving while intoxicated or recurrent speeding, or other reckless behaviors
(8) if a parent or guardian: lack of ability to function as a responsible parent as evidenced by one or more of the following:
   (a) child's malnutrition;
   (b) child's illness resulting from lack of minimal hygiene standards;

DAILY LIFE EXPERIENCES QUESTIONNAIRE

DIRECTIONS

On the following pages are some questions about experiences that you may have in your daily life. We are interested in how often you have these experiences. It is important, however, that your answers show how often these experiences happen to you in your everyday life when you are not under the influence of alcohol or drugs. To answer the questions, please determine to what degree the experience described in the question applies to you and mark the line with a vertical slash at the appropriate place as shown in the example below.

EXAMPLE:

0% |                             | 100%
1. Some people have the experience of driving a car and suddenly realizing that they don't remember what has happened during all or part of the trip. Mark the line to show what percentage of the time this happens to you.

This inventory consists of numbered statements. Read each statement and decide whether it is true as applied to you or false as applied to you.

You are to mark your answers on the answer sheet you have. Look at the example of the answer sheet shown at the right. If a statement is true or mostly true, as applied to you, blacken the circle marked T. (See A at the right.) If a statement is false or not usually true, as applied to you, blacken the circle marked F. (See B at the right.) If a statement does not apply to you or if it is something that you don't know about, make no mark on the answer sheet. But try to give a response to every statement.

Remember to give your own opinion of yourself.

In marking your answers on the answer sheet, be sure that the number of the statement agrees with the number on the answer sheet. Make your marks heavy and black. Erase completely any answer you wish to change. Do not make any marks on this booklet.

Remember, try to respond to every statement.
