An Interview for Children: 
Traumatic Events Screening Inventory (TESI-C) 

INTRODUCTION FOR CLINICIAN INTERVIEWERS

OVERVIEW
The TESI-C protocol is a guide for clinical and/or research interviewing to screen for a child’s history of exposure to potentially traumatic experiences. The protocol is designed to help clinicians focus in a systematic fashion on the primary domains of trauma for children, which include direct exposure to or witnessing of severe accidents, illness or disaster, family or community conflict or violence, and sexual molestation. The questions are arranged to hierarchically review experiences in an order that helps the child tolerate the possible stress of disclosing traumatic experiences: gradually increasing the intimacy of the experiences (i.e., sexual trauma is reserved for the end of the interview) and so as to help the child recall not only physical harm/violence but also incidents of threatened harm and witnessed trauma.

The interview includes 16 items that survey the domains of potential traumatic experiences. Each item rated YES is followed immediately with probes to determine the child and interviewer’s view of the life threat/severe injury/risk of severe injury involved (OBJECTIVE) and three probes eliciting the child’s appraisal of the potentially traumatic incident(s) described for that item (APPRaisal).

CLINICAL/FORENSIC USE
This protocol provides hypotheses, not a definitive identification or rule-out. All findings should be corroborated by information from independent sources. The interview is designed for use ONLY by qualified mental health professionals or advanced trainees supervised by a qualified mental health professional. The critical qualifications are:

- Licensure for independent practice in child assessment and psychotherapy
- Supervised experience in assessment or psychotherapy with child survivors of trauma and their families

The protocol should not superset clinical judgment in making the following judgments to ensure that all relevant data are obtained and that the child is not retraumatized in the process:

- If a child’s affective or behavioral state or level of distress warrants either pausing from or discontinuing the protocol or doing a more detailed inquiry than provided in the protocol
- If event(s) that do not qualify as DSM-IV Criterion A trauma still warrant clinical exploration (e.g., exposure to sexualized activities not covered by items #12 and 13; family separation due to divorce)

ADMINISTRATION and SCORING

(A) • ask the initial question verbatim, and follow with open-ended probe questions to clarify EACH incident

(B) • ask the additional question(s) verbatim, again following up with open-ended probes for EACH incident

(C) • elicit sufficient information to make an informed choice among the rating options:

YES = child describes one or more incidents of the type defined by the question; 
NOTE that a "YES" does NOT automatically indicate traumatic exposure. 
Trauma requires determination of life/physical threat (Criterion A1) and subjective fear, helplessness, or horror (Criterion A2) by the specific probe questions that follow.

NO = child states that s/he has not experienced any incident of the type defined. If no other information indicates such an incident, continue to the next TESI-C item.

NOT SURE = insufficient information for YES or NO; gather additional data if possible If no further information indicates such an incident, continue to the next TESI-C item.

REFUSED = child responded “pass” or otherwise refused to answer the question(s) If no other information indicates such an incident, continue to the next TESI-C item.
An Interview for Children: Traumatic Events Screening Inventory (TESI-C-Brief Form)

QV: QUESTIONABLE VALIDITY = child’s credibility as historian or circumstances cause reasonable doubt [Provide written explanation in space provided just below the rating boxes for that item]
INTRODUCTION FOR CLINICIAN INTERVIEWERS (continued)

(D) • Use closed-ended probes to definitively indicate the following key trauma-specific information:

OBJECTIVE HARM/THREAT according to Child = child's view of whether serious harm did or could have occurred. Mark "YES" for each event endorsed by child. Mark "YES" if child's open-ended responses clearly indicate s/he views the event as causing/threatening death/severe physical harm. Ask the specific probe question only if child's open-ended answer does not clearly give this information. Mark "NO" if the child does not indicate the event involved or threatened severe harm/death.

OBJECTIVE HARM/THREAT according to Interviewer = based on a careful review of the incident with the child, answer "YES" if you judge the event caused or threatened severe physical harm/death to ANYONE involved, and "NO" if you judge the event did not cause or threaten harm/death to ANYONE involved.

SUBJECTIVE APPRAISAL of extreme fear = Mark "YES" if the child's open-ended answer or response to the specific probe question indicates s/he felt extreme fear in or immediately following the incident. Mark "NO" if the child specifically says s/he did not feel extreme fear, in response to the probe question.

SUBJECTIVE APPRAISAL of helplessness = Mark "YES" if the child's open-ended answer or response to the specific probe question indicates s/he felt helpless in or immediately following the incident. Mark "NO" if the child specifically says s/he did not feel helpless, in response to the probe question.

SUBJECTIVE APPRAISAL of horror = Mark "YES" if the child's open-ended answer or response to the specific probe question indicates s/he felt sick, disgusted, or horrified in or immediately following the incident. Mark "NO" if the child specifically says s/he did not, in response to the probe question.

If information provided in answers to subsequent questions indicates a need for clarification and possible revision of the rating of a prior question, it is appropriate to return and, if necessary, modify the rating of the earlier question.

If more than one event or experience is described for any item:

(a) Use open-ended probes to clarify the nature and impact of each incident
(b) Repeat/record the OBJECTIVE and APPRAISAL questions separately for each event.

Research Uses of Data from this Interview

Follow-up probes are provided for all questions and at the end of each Event Section and at the end of the interview to permit a determination of whether each identified event qualifies as a traumatic stressor based upon the American Psychiatric Association’s Diagnostic and Statistical Manual (DSM-IV) definition of post-traumatic stress disorder:

• A(1) Involves experiencing, witnessing, or being “confronted with” actual or threatened death or serious physical injury, or a threat to the physical integrity of self or others

Both the child’s and the interviewer’s appraisal must be documented for each event.

***AND***

• A(2) Be appraised by the individual as causing “intense fear, helplessness, or horror” -- which may be expressed by children as “disorganized or agitated behavior.”

The child’s recollection of fear, confusion, or disgust must also be documented.

(2) Informed Consent (in a format approved by an appropriate Institutional Review Board or Human Subjects/Research Participants Committee) MUST be obtained from an appropriate parent or adult guardian if these data are to be used for research purposes.
"I'M GOING TO ASK YOU ABOUT SOME THINGS THAT SOMETIMES HAPPEN TO KIDS (TEENAGERS). WE'LL TALK ABOUT A BUNCH OF OTHER THINGS THAT HAVE HAPPENED TO YOU, BUT RIGHT NOW I’D LIKE TO KNOW ABOUT THINGS THAT WERE THE SCARIEST THINGS THAT EVER HAPPENED TO YOU. IF I ASK ABOUT SOMETHING YOU DON’T WANT TO TALK ABOUT, JUST SAY ‘PASS’ OK?"

## 1.1 Have you ever been in a really bad accident, like a car accident, a fall or a fire?

#### a). How old were you?  
**AGE(s)** (2.1.1) (2.1.2) (2.1.3) (2.2.1) (2.2.2) (2.2.3) ________

Who tried on purpose to hurt you really badly or threatened to hurt you really badly?  

- mother/stepmother  
- father/stepfather  
- sibling (AGE at the time): ________  
- grandparent: ________  
- other relative: ________  
- a child or teenager you know (AGE) ________  
- a grown-up you know ________  
- a grown-up you don’t know ________

---

b). [Interviewer: Ask for specific actions/weapons listed below ONLY if child indicates that some were or may have been used, but does not give sufficient detail to determine exact actions/weapons]

What happened?  

---

How did [ ] try to hurt you or say they’d hurt you? Did [ ] use something like a weapon?  

- hitting, kicking, biting (without weapon)  
- chilling, smothering, burning  
- use of a dangerous object to strike child  
- use of a weapon (gun, knife, chain, bat)  
- some other potential serious harm  

---

c). How often did [ ] try on purpose or threaten to hurt you really badly?  

- only once or twice  
- several times  
- several times a month  
- daily

---

#### 2.3 Children 12 or younger: Has someone a lot older ever tried to steal from you? Or from a family member or friend when you were right there?  

**Teenagers:** Has someone ever mugged you or held you up to try to steal from you?  
Or have you ever been present when a family member or close friend was mugged?

An Interview for Children:  
Traumatic Events Screening Inventory (TESI-C)

5. Has someone ever touched your body in a way you didn’t want them to or in a way that made you uncomfortable?

[Interviewer: Ask additional boxed probes only if child’s answer is “No” or unclear]

| Y | Comments: | N | NS | R | QV |

Children under 13: Has someone ever touched or taken pictures of your body’s private parts?  
Has someone ever made you touch their body’s private parts?  
Has someone ever made you see people doing things with their private parts?

Teenagers: Has someone ever touched your sexual parts or molested you?  
Has someone ever made you touch their sexual body parts?  
Has someone made you do or see something sexual that you didn’t want to?

a]. How old were you when this first happened?  AGE ___  When this most recently happened?  AGE ___

b]. Who did this to you?  (Interviewer: If different perpetrators at different times, indicate this clearly)

- mother/stepmother
- father/stepfather
- grandparent
- other adult relative
- sibling (AGE at the time):
- other adult you know
- another adult you don’t know
- a child/teen outside your family (AGE)

[Interviewer: Separately record each “Incident” of sexual contact by distinct perpetrator(s).  Each “Incident” is a related set of events, and may be a single event, a few episodes, or many episodes.]

Incident A: Ages________

Incident B: (complete only if more than one set of “Incidents”) Ages___________

Incident C (complete only if more than two sets of “Incidents”) Ages___________

*Interviewer: Do NOT read the following items to child. Check as applies to each discrete Incident A, B, C.

- Perpetrator at least five years older than child
- Force or violence used by perpetrator in sexual contact
- Touched child’s genitals
- Oral-genital contact (perpetrator to child)
- Oral-genital contact (child to perpetrator)
- Digital penetration of vagina/anus
- Intercourse (specify: anal/vaginal)
- Pornographic photography, filming, or activity
- Prostitution of child/teenager
- Other (describe: ____________________________)

d]. How often has this happened?

- only once
- once or twice
- one or two times a month
- about once a week
- several times a week
- daily
**An Interview for Children:**

**Traumatic Events Screening Inventory (TESI-C)**

6. Have there been some other times when somebody did or said something that made you feel the most sad or scared or unhappy you’ve ever felt, or that bothers you a lot now? Or when you were left alone and you were afraid you would die or no one would ever help.

- [ ] 1 Y
- [ ] 2 N
- [ ] 3 NS
- [ ] 4 R
- [ ] 5 QV

**CRITERION A1:** [Ask only if not already clear from child’s description ... ]

- When this happened, were you really hurt? Was someone else really hurt or even killed?
  - [ ] Y
  - [ ] N

[Interviewer: in your clinical judgment, was each incident life-threatening?]

- [ ] 1
- [ ] 2
- [ ] 3

**CRITERION A2:**

- Did you feel as scared as you’d even been, like this was one of the scariest things that EVER happened to you?
  - [ ] YES
  - [ ] NO

- Did you feel confused or mixed up (or helpless)?
  - [ ] YES
  - [ ] NO

- Did you feel sick or disgusted (or horrified)?
  - [ ] YES
  - [ ] NO

[Interviewer: In your clinical judgment did the child’s behavior indicate s/he felt extremely frightened, helpless, or horrified? YES] [ ] YES

- [ ] YES
- [ ] NO
- [ ] NS

**AGE(s) (6.1.1) (6.1.2) (6.1.3)**

**a.** How old were you when this happened?  

**b.** Who did this? (Interviewer: If different perpetrators at different times, indicate this clearly)

- [ ] mother/stepmother
- [ ] father/stepfather
- [ ] grandparent
- [ ] another adult relative
- [ ] sibling (AGE at the time):
- [ ] other adult you know
- [ ] another adult you don’t know
- [ ] a child/teen outside your family (AGE)

**c.** What happened?

---

**FINAL INSTRUCTIONS TO INTERVIEWER**

1. **REVIEW ALL ITEMS TO DETERMINE IF ANY MISSING INFORMATION SHOULD BE OBTAINED OR ADDITIONAL CLARIFICATION IS NEEDED TO CLASSIFY EACH ITEM ACCURATELY.**

2. **CHECK THAT ALL ITEMS MARKED YES FULFILL THE CRITERION OF INVOLVING A DIRECT OR INDIRECT THREAT, WITNESSING OF, OR BEING CONFRONTED WITH DEATH OR SERIOUS PHYSICAL INJURY -- EXCEPT FOR #5, WHICH DOES NOT REQUIRE THREAT OF DEATH OR PHYSICAL INJURY BUT DOES REQUIRE SEXUAL CONTACT THAT INVOLVES FORCE, THREAT, COERCION, OR IS DEVELOPMENTALLY INAPPROPRIATE, I.E., WITH A PERSON 5 OR MORE YEARS OLDER.** IF CLINICAL JUDGMENT SUGGESTS THAT OTHER CIRCUMSTANCES OCCURRED INVOLVING SEXUAL CONTACT THAT WAS DEVELOPMENTALLY INAPPROPRIATE, DOCUMENT THE SPECIFIC CIRCUMSTANCES.

3. **BASED UPON A REVIEW OF THE PARENT TESI-P, CONSIDER FURTHER INQUIRY ABOUT ITEMS ENDORSED BY THE PARENT BUT NOT BY THE CHILD. SUCH INQUIRY SHOULD BE SENSITIVE AND OPENENDED, SO AS TO IN NO WAY ENCOURAGE OR LEAD THE CHILD TO PRODUCE ANSWERS OTHER THAN WHAT THE CHILD SPONTANEOUSLY PROVIDES. DO NOT ASSUME SUCH EVENT(S) HAVE HAPPENED OR WERE TRAUMATIC FOR THE CHILD SIMPLY BECAUSE THE PARENT BELIEVES THIS TO HAVE BEEN THE CASE.**

**COMPLETE THE FOLLOWING TO ENSURE FULL DOCUMENTATION AFTER REVIEWING TESI-P AND RESPONDING TO ALL PARENTAL QUESTIONS:**

**CLINICIAN SUMMARY:**

- Possible physical abuse indicated? [ ] YES [ ] NO [ ] UNSURE
- Possible sexual abuse indicated? [ ] YES [ ] NO [ ] UNSURE
- Is a report to Protective Services required now? [ ] YES [ ] NO [ ] UNSURE
- If yes, who will be placing the call to Protective Services? 
  
  **CONSULT A SUPERVISOR OR CHILD PROTECTIVE SERVICES FOR ANY QUESTIONS ABOUT A CHILD’S CURRENT SAFETY**
