Self-Care Mobile Apps

www.ptsd.va.gov/appvid/mobile

Mobile mental health apps from the National Center for PTSD were developed for Veterans and Service members with PTSD and related concerns. These apps can be used by anyone to support recovery, including people who are in treatment as well as those who are not. The apps feature coping tools, educational readings, self-assessments, and links to support. There are also companion websites with extra content as noted below; these websites are independent of the apps and offer another way to access the information. All of the apps are free, secure, and easy to use.

PTSD Coach supports the self-management of posttraumatic stress disorder (PTSD). The app may be used alone or in combination with the website PTSD Coach Online (www.ptsd.va.gov/apps/ptsdcoachonline/).

PTSD Family Coach is for partners, family members, and other loved ones of individuals who may be experiencing posttraumatic stress disorder (PTSD). This standalone app also contains support tools for caregiving.

AIMS for Anger Management is an app for anyone with anger problems. It may be used alone, or in combination with the Anger and Irritability Management Skills online self-help course (www.veterantraining.va.gov/aims).

Beyond MST is for individuals who experienced military sexual trauma, or MST. The app can help with coping, learning more about recovery from MST, and tracking progress over time.

Couples Coach was created for partners who want to improve their relationship and explore new ways to connect.

COVID Coach was created for everyone, to support self-care and overall mental health during the coronavirus (COVID-19) pandemic. Check out “30 days of self-care with COVID Coach,” a guide to help make self-care a part of your daily life: https://tinyurl.com/30daysofCOVIDCoach

Insomnia Coach supports the self-management of insomnia. It can be used alone or in combination with the website Path to Better Sleep (www.veterantraining.va.gov/insomnia).

Mindfulness Coach is designed to support independent mindfulness practice. The app also contains information about mindfulness and PTSD symptoms, increasing resilience and self-awareness, improving emotional balance, and building positive skills.

VetChange is an app for anyone who is concerned about their drinking and PTSD. The app may be used alone or in combination with the VetChange website (www.ptsd.va.gov/apps/change).
